A wide-angle photograph of a rocky beach. The foreground is filled with smooth, light-colored pebbles and small stones. The water is exceptionally clear, showing a vibrant turquoise color near the shore that deepens into a dark blue further out. Gentle waves are breaking against the rocks, creating white foam. The sky is a clear, bright blue, and the overall scene conveys a sense of peace and natural beauty.

The peaceful and unspoiled nature of the island is something that our clients, and locals alike, hold close to their hearts and preserve with great enthusiasm. This sentiment and pride is deep rooted in the heritage of the people who were born on Ithaca or have a family history from here.

What our clients say about us

MV Properties look after our home to a very high standard and we are delighted and appreciative of their support.

We were delighted that MV Properties delivered our vision on time and even better, on budget.

They manage our house when we are not on the island and they are completely professional and responsive whenever we need support or an explanation.

I just bought my land with MV Properties who were very helpful during and through the whole process of the sale. They are knowledgeable about what steps have to be taken through each stage, and they made my life easier for this buy. I highly recommend them.

Service with a smile is what you get with Melanie. She truly does go the extra-mile. I had very positive feedback from all my guests and it was a most memorable and enjoyable celebration.

An aerial photograph of a coastal bay. The water is a deep blue, transitioning to a lighter turquoise near the shore. A small white boat is visible in the middle of the bay. On the right side, a curved sandy beach is bordered by a concrete pier or marina structure with several boats docked. The land is covered in dense green trees and vegetation, with a few buildings visible near the shore. The overall scene is peaceful and scenic.

"And what he greatly thought, he nobly dared."
